

Systematic Review of Bacterial Keratinases

Pharmaceutical & Cosmetic Applications

Compiled: September 12, 2026

Data sources: NCBI protein, nucleotide & PubMed
Records analyzed: 468 proteins, 237 papers, 261 nucleotides

Figure Inventory

Grid 1 – Overview (4 panels)
Grid 2 – PCA & Clustering (4 panels)
Grid 3 – Comparative Analysis (4 panels)
Grid 4 – Literature Analysis (4 panels)
Grid 5 – Integrated Dashboard (4 panels)

Total: 20 figures in 5 grid views

GRID VIEW 1 — Dataset Overview of Keratinase Proteins (n=468)

A) Protein Length Distribution

B) Top 10 Genera

C) Temporal Trend of Deposits

D) Length Category Breakdown

GRID VIEW 2 — PCA & Clustering Analysis

A) PCA Biplot — Clustered

B) Scree Plot

C) PCA Loadings Heatmap

D) Cluster Composition by Genus

GRID VIEW 3 — Comparative Analysis Across Taxa & Time

A) Protein Length by Genus

B) Era × Genus Heatmap

C) Era Distribution

D) Protein Family (Rudder)

GRID VIEW 4 — Systematic Literature Analysis (n=237 papers)

GRID VIEW 5 — Integrated Systematic Review Dashboard

A) Nucleotide Length Distribution

B) Feature Correlation Heatmap

C) Year vs Length (by Genus)

D) Study Summary Metrics
